

Suffered 7 Months With Eczema

Cuticura Completely Healed In Four Weeks

"For seven months I suffered with eczema on my limbs. It first broke out with pimples that festered and discharged, and then formed a crust. This scaled off and disfigured my limbs. I could not sleep because the itching and burning was so great."

"I suffered from August till February. Then I used Cuticura Soap and Ointment. I used two boxes of Ointment and two and a half cakes of Soap and in about four weeks I was healed." (Signed) Bennett Funk, 377 Robinson St., Baltimore, Md.

Skin troubles are quickly relieved by Cuticura. The Soap cleanses and purifies, the Ointment soothes and heals. Sample Each Free by Mail. Address postcard: "Cuticura, Dept. H, Boston." Sold everywhere. Soap 25c. Ointment 25 and 50c.

A BEAUTY SKIN BLEACH

Black and White Ointment—Removes Freckles, Tan, Heals Pimples, Rashes, Sun Burn.

Whitens Dark or Sallow Skin, Making It Soft, Fair, Bright. By Mail, 25 Cents.

Black and White Ointment (for white or red folks) easily bleaches dark, sallow or blotchy skin, clearing your skin of all rashes, bumps, pimples, blackheads, wrinkles, tan or freckles—giving you a clear, soft, fair, light, bright complexion. It stops and heals sun burn. Black and White Ointment is exquisite, soft, but not sticky, and is superior to all other skin preparations, as it heals as well as bleaches. Sold on a money-back guarantee, only 25c (stamps c. coin) sent by mail, or if you see it for four boxes of Black and White Ointment, a 25c cake of Black and White Soap included free. Address Plough Chemical Co., Dept. 61, Memphis, Tenn.

Agents Make an Easy Living representing us. Write for special deal. Black and White Ointment sold everywhere.—(Adv.)

ELECTRO-CHEMICAL MEN IMPRESSED WITH CITY

W. H. Stone Writes of Striking
Features of Chattanooga
From Technical View.

In this week's Manufacturers Record is a long account of the trip of the American Electro-Chemical society written by William H. Stone, special staff correspondent of that journal. Mr. Stone speaks as follows of the visit to Chattanooga:

Praise for This City.
"At Chattanooga the feature visit was to the plant of the Southern Ferro-Alloys company, where ferro-silicon is being made in electric furnaces. As one member stated, this is the first time that a plant of this kind has ever been thrown open for inspection, and the visitors were most expressive of their opinion of the broad-mindedness of the management. Paul J. Krueger, who is at the head of this enterprise, came in for much congratulation upon his progressiveness in building up such a splendid plant in the south, and showing thereby that the south was able to operate successfully the highest types of ferro-alloy industries."

"Here, too, was also seen the interesting by-product coke oven plant and the manufacture of chemicals from the resulting by-products by the Chattanooga Chemical company. This plant has the most modern equipment for its work, and not only what it is doing but its laboratories and experimental rooms for further developments created great interest on the part of the visiting chemists."

"The visitors were also taken on a boat trip to the big Anthony N. Brady hydro-electric development at Hale's Bar. This was of special interest to them because the development here creates a large amount of the water-power, but because at the same time it has materially improved navigation on the river for a good distance."

"This development, as well as that at Muscle Shoals, is illustrative of how hydro-electric undertakings on southern streams in many cases are largely tied up with river navigation, and while it is not generally conceded to be an economic proposition to construct low-head hydro-electric developments, yet when such developments are taken in conjunction with permanent improvement of navigation on the rivers they then become matters of important economic enterprise, and, of course, the charges should be proportioned between the improvements for navigation and the power created for hydro-electric purposes."

"The development at Muscle Shoals is along this line, and it must be conceded that a wonderful accomplishment has been obtained when the three dams will have been completed, providing for 660,000 horsepower of hydro-electric energy, and at the same time removing forever the great obstacle in making the Tennessee river navigable from Knoxville to Paducah, Ky. This certainly seems to justify the great cost entailed in carrying forth these improvements."

Other Points Visited.
Other points which impressed the party greatly, according to Mr. Stone, were the improvements at Kingsport, the zinc reducing plant at Mascot, and the great water power developments which the Aluminum Company of America is making on the Little Tennessee river. A dam forty feet higher than Niagara Falls is under way, and another 450 feet high, the highest in the world, is projected.

On the visit to Muscle Shoals Mr. Stone writes:
"At Muscle Shoals, the next point visited, was found, perhaps, one of the greatest features of the visit, this being the big nitrate plants which the government is building for the fixation of atmospheric nitrogen by two processes—the Haber process, controlled by the General Chemical company, and the cyanamid process, by the American Cyanamid company."

Immense Plants for Atmospheric Nitrates.
"In describing the features of nitrate plant No. 2, which will use the cyanamid process, one of the officials stated that 1,000,000 tons of raw materials would enter the plant annually. A lime plant is being constructed that will burn 350,000 tons per year and will be the largest lime-burning plant in the country."

"The coke-drying plant will handle 100,000 tons of coke per year."

"The liquid air plant will have a greater capacity than all other plants of this kind, both in the United States

BEAUTIFUL HAIR THICK, WAVY, FREE FROM DANDRUFF

Draw a moist cloth through
hair and double its beauty
at once.

Save your hair! Dandruff disappears and hair stops coming out.

Immediate!—Yes! Certain!—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after an application of Danderine. Also try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggly, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair—growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful. You can surely have pretty, charming lustrous hair, and lots of it, if you will spend a few cents for a bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.—(Adv.)

and Canada combined.
"The power house under construction at the plant will produce 45,000 kilowatts, while 13,000 kilowatts will be obtained from hydro-electric plants in the vicinity."
"Housing structures have been erected to take care of 12,000 men, and the two plants now have on their payroll about 13,000 employees. When completed the number of permanent employees will be between 3,500 and 4,000."

"Every facility has been provided at these camps and villages for the health, welfare and recreation of the employees, there being recreation buildings, moving picture shows and Y. M. C. A. structures, and large mess halls that feed 5,000 men every thirty minutes."

CAPT. O. B. ANDREWS CALLED TO THE COLORS

Commissioned Captain in Quartermaster's Department and
Ordered to Washington.

Oliver B. Andrews, one of Chattanooga's best-known manufacturers, was informed by wire last night that he had been commissioned a captain in the quartermaster's department, and was ordered by Adj.-Gen. McCain to report without delay to Quartermaster-General Goethals in Washington.

Capt. Andrews will be assigned to special work. The appointment has been pending for several weeks, subject to his acceptance. It is his expectation that his assignment will take him to France in a comparatively short time.

Capt. Andrews admits that this appointment will be of great cost to him, from a business standpoint, although he says that if the manufacturing business here cannot maintain itself for a time without his presence there could not be a better time for him to learn such to be the fact. However, he was confident that with his strong directorate and the experienced men he left in charge, he would find his factory running normally upon his return, with consistent success and profits during the time of his absence.

Capt. Andrews is president of the O. B. Andrews company, one of the largest box manufacturing concerns in the country.

PREACHES GREAT SERMONS TO INTERESTED AUDIENCES

Rev. J. J. Clark, of Knoxville,
Holding Successful Revival
at King Memorial.

A growing interest is being manifested in the revival services which are now in progress at King Memorial M. E. church, south. Evangelist Clark chooses texts and themes of universal interest, such as "Except ye repent ye shall all likewise perish," "Whatsoever a man soweth that shall he also reap," "The wages of sin is death," etc. Dr. Clark does not preach over the heads of his congregations. He gets right down where the people live, and in a conversational tone, so presents the claims of his Christ as to make each person present feel an individual responsibility to God. He makes it so plain that everyone can easily tell that he is not talking about the other fellow; and yet speaks with such deep conviction, with such great kindness and with so much love for God and his fellow-man that no person can become offended.

Sunday Evangelist Clark preached to great crowds both morning and evening. The meeting will continue throughout this week, with preaching every day at 2:30 and 8 p.m.

PRISONER TAKES FRENCH LEAVE FROM HOSPITAL

Martin Lynch Gets Sick, Goes
to Hospital and Later
Just Walks Away.

Martin Lynch has escaped from the county hospital, after serving only a few days of his sentence for a heinous offense against his little nephew. How or when or where Lynch went is not known, but through the carelessness of some one, he is free. Lynch, it is stated, escaped some time Sunday night or early Monday morning.

Martin Lynch was tried at the last term of court for improper conduct toward his little niece at the home of the latter. However, the little girl made such a poor witness that it left some doubt about Lynch's guilt and they released him. There was another charge against him in connection with the same kind of conduct with his little nephew, and in this case he was found guilty and fined \$50 and costs and given a three months' sentence in the workhouse. Lynch, at the time the charges arose against him, was living at the home of his sister and was sleeping in the same room with the little boy and girl. An effort has been made several times to have Judge McReynolds reduce the workhouse sentence against Lynch, but, as there is but little doubt in the minds of those who heard the case that the defendant was guilty, nothing could have been done for him except what he did for himself—escape.

NEGRO WRITES BACK FROM CAMP LEE; EVERYBODY HAPPY

Many Better Off Than at Home—Urges Friends to Write—Mail Not Censored.

Supt. J. W. Abel, of the Hamilton county schools, received a letter recently from a former colored professor in one of the county schools who is now stationed at Camp Lee, Va. His name is John P. Greer and he was with the 888th central Postal Directory. He writes that camp life is fine and is far from what one hears it is before he enters such life.

His letter in full to Prof. Abel is as follows:
"So far we like the camp life fine, and it is far from what one hears it is before he enters such life. Everything is as clean as a new pin, and nine out of ten of our young men are better cared for here than they are at home."

"I have been very lucky so far. The first day I drilled I was made corporal, and the next day I was made, or rather have been acting as company clerk sergeant, and have been in the office since that time."

"The officers are very nice, though exact, and believe in doing things. 'Regards to all the teachers and friends. Tell them that we are doing our part and trust that they are doing theirs."

"The biggest kick we hear about the camp is 'Wonder why they don't write.' The news is often put out that the mail is read by officers, but we know nothing of such here. Being company clerk I handle all the mail for our company, therefore, I hear all the complaints of the soldiers about the mail."

LEAGUERS TO MEET IN CENTENARY CHURCH

Program Consists of Addresses
by Most Prominent Speakers
in Southern Methodism.

The annual meeting of the Holston Epworth league conference of the Methodist Episcopal church, south, will be held at Chattanooga, June 18-21, inclusive. The sessions will begin on Tuesday night and close with the annual conference sermon on Friday night.

Good Program Planned.

According to Floyd M. Brown, secretary of the conference, an extraordinary program will be presented this year, including addresses by some of the best known laymen and ministers in Southern Methodism. Ex-Senator W. R. Webb, of Bealeburg, a prominent worker in the Tennessee conference, will deliver an address on "The World Growing Better." The annual consecration service will be conducted by Rev. Frank Y. Jackson, of Sweetwater. Among the other prospective speakers will be Bishop W. A. Candler, of Atlanta; Dr. Geo. R. Stuart, of Birmingham; Bishop W. R. Lambuth, who has made three missionary trips to Africa; Rev. S. A. Neblett, who is in charge of the missionary work in Cuba, now here on a leave of absence.

The local leagues are already making plans for the convention. The session will be held in Centenary church.

The general theme for discussion at the conference will be "Our Work" and all the addresses will be given along the lines of the accomplishments of the Epworth league, and suggestions on the plans that should be adopted in the future.

The final business session will take place Friday morning, at which time officers for the ensuing year will be elected, and the selection of the place of the next meeting made. It is understood that Knoxville will ask for the convention next year as will several towns in Virginia.

The present officers of the conference are:

President—H. F. Potts, Abingdon, Va.
Vice-President—Karl Harmeling, Bristol, Va.
Secretary—Floyd M. Brown, Knoxville.
Treasurer—John F. Good, Knoxville.
Junior Superintendent—Walter Neal, Chattanooga.
Missionary Superintendent—Miss Nellie Nichols, Knoxville.

When the Baby Needs a Laxative---

No one knows better than the ever-watchful mother—the natural doctor of the family in all the small ills—that when the baby is out of sorts it is usually due to indigestion or constipation.

It is always well, in any of its illnesses, to look for this cause. The diet may have to be changed, but before good can result from it, the bowels must be moved.

The mother has the choice of many medicines—cathartics, purgatives, bitter-waters, pills, physica, etc. But the little body doesn't need such harsh remedies for they wrench the system and do only temporary good, so often followed by an unpleasant reaction.

A better plan is to employ a mild, gentle laxative of which only a little is required. There is a combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepsin that thousands of mothers have used successfully for baby's constipation and its accompanying ills, such as belching, wind colic, restlessness, sleeplessness, etc.

The nursing mother will also find it ideal for herself, and it is especially important that she be free from constipation.

Syrup Pepsin is guaranteed to do as promised or the druggist will refund the money. Thousands of cautious families have it in the house, secure against the little ills.

Dr. Caldwell's SYRUP PEPSIN

The Perfect Laxative

NO INCREASE

In spite of enormous increased laboratory costs due to the war the manufacturers of Dr. Caldwell's Syrup Pepsin are sacrificing their profits and absorbing the war taxes so that this family laxative may remain at the pre-war price of 50c and \$1 a large bottle. So sold by druggists for 26 years.

FREE SAMPLES

Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in America. If you have never used it and would like to sample it before buying, send your address for a free trial bottle to Dr. W. B. Caldwell, 466 Washington St., Monticello, Ill. If you have had it before, send for a copy of "The Care of the Baby."
